

Main Contractors: Dragages et Travaux Publics (S) Pte Ltd

The Centennial Tower Project

DRAGAGES et TRAVAUX PUBLICS (S) PTE LTD would like to thank LWC INDUSTRIES PTE LTD whom we worked closely with during the design stage. The precast concrete system by LWC INDUSTRIES PTE LTD was one of the many innovative construction methods which enabled DRAGAGES et TRAVAUX PUBLICS (S) PTE LTD to achieve productivity of an average 1 storey every 4 days.

At the same time the highest standards of quality and safety were adhered to.
